

Appl. No. 10/719,076  
Reply to Office Action of 11/30/2005  
Attorney Docket No.: 6045-006  
Customer No.: 29,335

**Amendments to the Abstract**

Applicant has amended the abstract according the Examiner's suggestions. Please amend the specification as follows:

**Amended Abstract**

~~The disclosed device is a~~ A food transporting device that enables food transport for cooking with limited spillage and reduces actual, direct contact between user and food objects. The ~~disclosed~~ food transporting device comprises a flat base, a rounded end for gripping, and a pair of sidewalls attached to a side of the flat base and extending perpendicularly upward therefrom, the flat base, rounded end and pair of sidewalls defining a holding volume for holding food objects for transport with minimal spillage.

**New Abstract**

A food transporting device that enables food transport for cooking with limited spillage reduces actual, direct contact between user and food objects. The food transporting device comprises a flat base, a rounded end for gripping, and a pair of sidewalls attached to a side of the flat base and extending perpendicularly upward therefrom, the flat base, rounded end and pair of sidewalls defining a holding volume for holding food objects for transport with minimal spillage.
